Nowadays there are tons of devices that you can even keep in your pocket under the name of smartphones. These devices are so convenient, user friendly and so powerful that it can basically do anything. It can serve as a flashlight, calculator, movie player and more. But the problem is the same with computers - a virus. Fortunately, there are apps like AVG Antivirus Pro that were developed by AVG Mobile. This popular antivirus app has already been downloaded 100 million times in the google Play Store! Aside from antivirus, this app also has tons of features like app lock, photo vault, Wi-Fi security scan, and much more! For more information, read on! What is AVG Antivirus Pro? Almost all of us today have smartphones. Even babies own and know how to use one! But because we use our smartphones so much every day, we are exposed to viruses. Viruses are not new, they simply develop overtime and consume more and more devices. They started on computers, and now they can attack phones, as if you always download from the Internet and connect your phone to computers, you're in danger! Fortunately, you don't throw your phone away if it catches viruses. Thanks to apps like AVG Antivirus Pro, your phone can be secure! Safe! antivirus program has already saved more than 100 million devices worldwide! Aside from the fact that there are tons more features that this app offers to offer privacy protections such as app lock, VPN, photo vault and more! Read on to learn more. Avg Antivirus Pro AVG Antivirus Pro features is a popular antivirus program that allows your device to have complete protection against malware and viruses. Here are its features: Protection - the main feature that avg Antivirus Pro offers is antivirus protection. This app scans apps, games and files and removes malware from your phone with one touch! You can also scan websites to detect malicious threats that try to invade your phone. In addition, you can use a Wi-Fi scanner for network encryption, password strength, and captive portal. There are a lot of things this app can do to protect your phone from malware! Performance – AVG Antivirus Pro also allows you to increase the performance of your device by killing tasks and processes that slow it down. You can also extend battery life with a power-saving feature that automatically turns off battery draining apps. You can then also clear unnecessary files to free up storage for important files. Finally, you can check the speed of Wi-Fi downloads and uploads directly into the app! Anti-Theft – AVG Antivirus Pro also allows you to find your lost or stolen phone using Google Maps. But an ounce of prevention, you can create a lock screen. You can also add a siren to your phone. Then you can also create a Theftfix where it allows you to take a photo of anyone trying to get into your phone uninvited. In addition to them, there are other features such as Device Lock, Monitoring Agent and Remote History. All of these allow you to secure your phone completely. Privacy – In terms of privacy, AVG Antivirus Pro also allows you to hide photos in a vault protected by a password. You can then also access the app lock feature to block apps. There is also a VPN service app. App Insights – AVG Antivirus Pro also allows you to access app insights easily. You can view the App Usage Tracker, monitor how you spend time, see where your data is used, and detect potential privacy issues. Download AVG Antivirus Pro APK – The latest version of AVG Antivirus Pro is a revolutionary antivirus app that more than just protects your app from malwares! Download the latest version to access all the features now! Read AVG Antivirus Description Download Newer VersionSafe install: It is original and unmodified AVG Antivirus APK as provided by its developer via Play Store. See hashes above. Above.
